EDUCATION

Bachelor of Technology in Computer Science With Data Science

2024 - 2027

SVKM's Dwarkadas J. Sanghvi College of Engineering

Diploma in Information Technology

2021 - 2024

SVKM's Shri Bhagubhai Mafatlal Polytechnic

EXPERIENCE

JP Morgan Chase & Co.

Remote

Apprenticeship

July 2024 - August 2024

- Completed a job simulation for the Corporate Analyst Development Program, leveraging Tableau for a 25% improvement in data clarity, analyzing business processes and creating data-driven presentations.

Dcyber Techlab

Remote

Web Developer Intern

June 2023 - July 2023

- Built responsive website using ReactJS completing projects within given timelines enabling faster deployments.

SKILLS

- **Technical:** C, C++, Java, Python, PHP, C#, React, Node, Express, Flask, OpenCV, YOLO, Tensorflow, Flutter, Firebase, MySQL, Data Structures.
- **Tools:** Git, GitHub, Roboflow, Postman, Jupyter, Figma.

PROJECTS

SevaMeds: Smart Donation Management Platform

- Developed a user-friendly NGO application using Flutter to facilitate donations of medicine, blood, clothes, and books, achieving 90% user satisfaction, and integrated Firebase for a robust backend.
- Implemented a YOLO and OpenCV-based ML model to detect medicine names from images, increasing donation speed by 40%, and enhanced donor communication with email notifications, boosting engagement by 30%.

Opportune: Intelligent Career Acceleration Platform- Top 10 DataHack Finalist

- Developed a platform leveraging Generative AI and ML to provide dynamic roadmaps, course recommendations, resume analysis, and voice-based mock interviews, enhancing learning and career opportunities.

CyclePro: AI-Powered Smart Cycling Assistant

- Engineered an AI-driven cycling safety system with 90%+ accuracy in accident and pothole detection, utilizing three-camera input for real-time warnings. Implemented a speedster alert detecting fast-approaching vehicles with 85% precision, alongside an interactive dashboard for ride analytics.

StaySphere: An Ecommerce Website

- Built an e-commerce website with a room booking module, bill calculation based on members, and automated PDF generation. Integrated email functionality to deliver invoices, enhancing user convenience by 35%.

COURSES

- **Mastering Data Structures Algorithms using C and C++ on Udemy**
- **Python Data Analysis by Michele Vallisneri on Linkedin Learning**
